SPaRCS TEST

Tests of Spelling, Processing Speed and Reading Comprehension Speed

IDEAL ACCESS ARRANGEMENTS FOR

EDUCATION ELEPHANT

THE GROUP TEST FOR UNCOVERING LEARNING DIFFICULTIES

The SPaRCS is an Irish and UK Normed Test Battery which can be given to whole classes (groups) or individual students.

13-18
YEARS OLD

"It definitely is one of the go-to ones in my test battery now. That's mainly because it's new, so it's modern, and it's British, which makes a nice change from all the American tests that you sometimes have to use because there are no alternatives."

Ms. Thomson
Access Arrangements Assessor

"[I was] looking at (the SPaRCS test) before we started, [thinking], 'There's no way! It's too easy, it's not going to flag up anybody!' But we were so wrong! We tried it out and couldn't believe it."

Ms. Browne
Special Education Needs Coordinator

SPaRCS TEST

Tests of Spelling, Processing Speed
and Reading Comprehension Speed

EDUCATION ELEPHANT

MAIN FEATURES

Time efficient

- Group or individual administration
- Give all subtests in approximately 40 minute class period

Have confidence in results

- High reliability

Discover hidden difficulties quickly

- Test whole classrooms to discover any challenges for all your students

Apply for access arrangements

- Reports standard scores, percentiles and confidence intervals
- Reader, Scribe, 25% extra time

OVERVIEW

The quick whole class testing solution for:

1. Spelling

Single word spelling test (administration time approximately 10- 15 minutes)

2. Processing Speed

Timed test. Letter & digit matching task (administration time limit = 2 minutes).

3. Reading Speed (with comprehension)

Timed reading test designed to mimic examination conditions. Students read short passages (approximately 100-200 words), as fast as they can, and select, from a list of 4-5 words, missing words from sentences. This test is specially designed to assess a student's reading speed when comprehension is necessary (i.e. Reading Fluency) and is one of the crucial skills required for efficient learning and examination performance (Administration time limit = 10 minutes)

Additional subtests (effort indicators)

An important and unique feature of the SPaRCS is the inclusion of Effort Indicators. These indicators may be an important feature when using test results to apply for examination accommodations or arrangements.
